

ישמחו השמים ותגל הארץ

It is with a great sense of hakoras hatov that I present this sefer בי הדבר to my family, friends, and anyone interested in a good vort. I am grateful to the Ribono Shel Olam for His חסדים in allowing me a kiyum in ללמוד וללמד לשמוע ולעשות. A teacher's success is measured by looking at the students. Grandparents have the same rule. The joy of working with my grandson Ari provided me with נחת אהן א סוף. His technical expertise brought this project to fruition.

Bobbi D, my אהבת נעורים and אשת חיל, Devorah, stood at my side, encouraging me every step of the way.

The contents of this sefer are drawn from many sources; they all have something to teach. Yehi ratzon my words bring simcha to the Ribono Shel Olam and joy to all who read them.

Dedicated to the grandchildren שיחיו.
