

It is a distinct honor to write these words for my dear friend, the esteemed physician Dr. Leslie Bennett, who has composed a beautiful *sefer* which includes *divrei Torah* on each *parshah* and on the *Moadim*.

Dr. Bennett has been my friend since childhood—we grew up on the same block and were classmates throughout high school and college. Therefore, I can attest firsthand that he is not only a prominent physician, but a true *baal middos*, who has consistently been *kovea ittim* for Torah study despite his busy schedule.

His *sefer* will no doubt be very useful both to *baalei batim* and *rabbanim* for the collection of incisive *divrei Torah* it contains, culled from a wide range of sources and including his own brilliant insights as well.

I wish him much continued *hatzlachah*, and may he and his family see much *nachas* from all of their endeavors.

Rabbi Menachem Genack
